SANAULLAH

MERN STACK DEVELOPER

0340 9203497 | sanaarman033@gmail.com | Islamabad Pakistan | LinkedIn

SUMMARY

MERN Stack Developer with 1+ year of experience building responsive and scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, authentication systems, and dynamic frontend interfaces with React and Tailwind CSS. Experienced in collaborating with development teams on real-world projects from development to deployment. Passionate about writing clean code, solving problems, and creating efficient user-focused applications.

PROFESSIONAL EXPERIENCE

MERN Stack Developer — **TechSurgeon – Pakistan | Jan 2026– Present**

- Developed and maintained full-stack web applications using the MERN stack.
- Built secure RESTful APIs and integrated frontend applications with backend services.
- Implemented authentication and authorization systems using JWT.
- Collaborated with frontend developers and designers to deliver responsive and user-friendly applications.
- Optimized database queries and improved application performance using MongoDB.
- Participated in agile workflows, code reviews, debugging, and feature enhancements.

MERN Stack Developer Intern — **TechSurgeon – Pakistan | Dec 2025 – Jun 2026**

- Assisted in developing responsive web applications using React.js and Node.js.
- Learned backend development concepts including API integration and database management.
- Worked on CRUD functionalities, authentication systems, and frontend responsiveness.
- Collaborated with senior developers to debug issues and improve application performance.
- Gained hands-on experience with Git workflows, Postman testing, and agile development practices.

EDUCATION & CERTIFICATION

FSc (Intermediate) — **Jun 2021 - Nov 2023**

MERN Stack Development Certificate - Max Tech Computer Institute

PROJECTS

Task Management System | 2026 – link

- Developed a full-stack task management application using the MERN stack.
- Implemented role-based authentication and authorization using JWT.
- Built RESTful APIs for task creation, assignment, status tracking, and progress updates.
- Designed a responsive frontend using React.js and Tailwind CSS.
- Integrated MongoDB for structured data storage and optimized database queries.

E-Commerce Book Store | 2025 – link

- Created a MERN-based bookstore application with secure user authentication.
- Implemented CRUD operations for books and order management.
- Built dynamic search and filtering features for better user experience.
- Developed an admin dashboard for product and order management.

Restaurant Management Website | 2025 – link

- Built a dynamic restaurant management system with menu display and order handling.
- Designed backend APIs for order processing and product management.
- Created a responsive user interface using React.js.
- Improved usability and responsiveness across multiple devices.

SKILLS

- **Backend Development:** MongoDB, Express.js, Node.js, REST APIs, JWT Authentication
- **Frontend Development:** React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Redux
- **Tools & Technologies:** Postman, Git, Agile Methodology
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Time Management.
